

Water pipes  
were in bad  
condition

These sorting cards are separated into cause and effect for the Great Fire of London. See the Teachers' notes for more information.

Firefighters  
struggled to  
get enough  
water

New rules for  
looking after  
water pipes

Lots of houses  
were made  
of wood

Wooden  
houses burned  
very quickly

New houses  
had to be  
made of brick  
and stone

Firefighting  
equipment  
was in short  
supply

These sorting cards are separated into cause and effect for the Great Fire of London. See the Teachers' notes for more information.

It was difficult  
to put out  
fires once  
they started

Parishes had  
to have more  
firefighting  
equipment

London's  
streets were  
very narrow

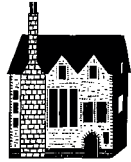

Flames could  
easily spread  
across the city

Some of  
London's  
streets were  
made wider

Houses jugged  
out very close  
together

These sorting cards are separated into cause and effect for the Great Fire of London. See the Teachers' notes for more information.

Flames could  
easily move  
from house  
to house

New rules  
on the size  
and shape of  
houses
